

April 15, 2010

Dear Medical Staff Colleague,

We are pleased to provide the enclosed Physician Directory as a valuable resource for you and your office staff. This directory will be useful for making referrals to the many outstanding primary care and specialist physicians who are members of the Mercy Medical Staff.

The directory includes details about a physician's area of practice, education and training, credentials and contact information. Physician profiles are arranged by specialty and an index is included to help you find physician listings by name or by practice location. You can also find Life Laboratories locations and Mercy Medical Center important telephone numbers listed in the directory.

If you would like additional copies of the directory, please contact Mercy Medical Center's Marketing Department at 748-9701. If changes to your listing are requested, please contact the Marketing Department so that corrections can be made to the electronic edition and the next printed edition. Likewise, please contact the Marketing Department if your photograph is not included and you would like to arrange for it to be in future editions.

Sincerely,

Timothy Fitzpatrick, MD
Medical Staff President, 2008 – 2010

Philip Gaziano, MD
Medical Staff President, 2010 - 2012
